## **DETAILED ACTION**

### ***Priority***

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy of CH01645/03 has been received. ***Specification***
2. The disclosure is objected to because of the following informalities:
3. The specification does not include any section headings.

The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

### **Arrangement of the Specification**

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
  - (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
  - (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
  - (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT.
  - (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC.
  - (f) BACKGROUND OF THE INVENTION.
    - (1) Field of the Invention.
    - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
  - (g) BRIEF SUMMARY OF THE INVENTION.
  - (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
  - (i) DETAILED DESCRIPTION OF THE INVENTION.
  - (j) CLAIM OR CLAIMS (commencing on a separate sheet).
  - (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
  - (l) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).
4. All references to specific claim numbers in the specification should be deleted.

5. Appropriate correction is required.

***Claim Objections***

6. Claims 5-24 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot refer to another multiple dependent claim and must refer back in the alternative only. See MPEP § 608.01(n). Accordingly, the claims 5-24 have not been further treated on the merits.

***Claim Rejections - 35 USC § 112***

7. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
8. Claims 1-4 appear to be a literal translation into English from a foreign document and are replete with grammatical errors and indefinite language.
9. The preamble of claim 1 uses the exclusive language of "consisting of", and therefore the open-ended phrase "at least one..." in the body of the claim renders the claim indefinite as to the exclusive elements of the invention.
10. Regarding claim 1, the phrase "connected positively" is unclear.
11. Regarding claim 1, are the "pressure/tension elements (5)" referencing the previously recited "at least two pressure/tension elements (15)"?
12. Regarding claim 1, what is the "generating line"?
13. It is unclear if the "at least one of hollow elements" recited in claim 1, line 16, is referencing the "hollow element" previously recited in claim 1, line 3.
14. In claim 2, "the at least three pressure/tension elements" lacks antecedent basis.

15. It is unclear how many tension elements are included as claim 2 recites one and claim 3 recites a pair.

16. It is unclear if the “at least one structural element” and “at least one flat surface” recited in claim 4 are referencing the “at least one structural element” and “surface” previously recited in claim 1.

***Allowable Subject Matter***

17. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. It is noted claim 1 was examined per the exclusive preamble language of “consisting of”.

18. Claims 2-4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

19. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
